Present

**FEMALE CANCER SCREENING WORKSHOP**

February 18 & 19, 2009

Jasper Fire Hall  
205 Water Street  
Jasper, Texas 75951

Presenters

Faye Gregory, MSN, RN, FNP  
Division of Nursing, MD Anderson Cancer Center

Carol Dallred, RN, MSN, WHNP-BC  
Division of Nursing, MD Anderson Cancer Center

Gwendolyn Corrigan, MSN, RN, FNP  
Division of Nursing, MD Anderson Cancer Center

Purpose/Goal:

To decrease the burden of female cancers in rural and medically underserved areas of Texas by improving the cancer screening knowledge, skills, and practices of nurses

Learning Objectives:

1. Discuss cervical cancer in terms of epidemiology, risk factors, signs and symptoms and prevention
2. Discuss other gynecologic cancers in terms of epidemiology, risk factors, signs and symptoms, and prevention.
3. Discuss colorectal cancer in terms of epidemiology, risk factors, signs and symptoms, and prevention.
4. Discuss breast cancer in terms of epidemiology, risk factors, signs and symptoms, and prevention.
5. Recognize components of a comprehensive clinical breast examination.
6. Discuss lung cancer and skin cancer in terms of epidemiology and primary prevention.
7. Demonstrate proper technique for a comprehensive clinical breast examination.
8. Demonstrate appropriate documentation of exam findings, risk assessment, and patient education.

Target Audience:

**Day 1**

is open to registered nurses, nurse practitioners, licensed vocational nurses, physician assistants, mammography technicians, social workers, health educators, dietitians, and tumor registrars

**Day 2**

is open to pre-selected group of registered nurses, nurse practitioners and physician assistants. Space is limited to 12 participants
